

WDBS DARTMOUTH BROADCASTING SYSTEM

49 ROBINSON HALL · HANOVER · NEW HAMPSHIRE · TELEPHONE 30

January 9, 1951

Mr. Howard Eaton
Production Director
Station WYBC
New Haven, Conn.

Dear Howie,

Thank the Lord this last vacation was safe and sane, in short.....no train wrecks. I hope yours was a good holiday too.

I'm returning your press card with many thanks. We have printed up an entirely different card but decided not to change it too radically, as the old one was well known among the various gatekeepers at athletic events and they were prone to letting the boys in on the side.

I was sorry to hear that you won't be in the driver's seat after February, but I do hope to meet Dave Robinson soon and I'm sure we can carry on inter-station co-operation as before. Of course that new Ivy contract with Ford has brought cheer to many hearts, no doubt to the boys at WYBC, too.

We took a tap for broadcast from the NBC line on that Monsanto Chemical show and things worked out quite well. Speaking of NBC, I saw Dick Hollands over vacation, I'm sure you remember him, and he is now the receptionist in the NBC personnel department. Says he- I just say no to hundreds of people in a thousand words each day. Well, he always was a diplomat.

Are you doing any live workshops or dramatic programs? We have done a couple of good ones (plus a few clinkers) and if you have any ideas on exchanging a few, it might be a fine project.

Finals and Carnival are almost on us so what with six days of being on the air for 18 hours a day, books are in order right now.

Best wishes,

Bill Terry
Program Director
